

THE SALES ACCELERATOR

30-Day Commission Multiplier

For Wireless & Retail Sales Reps

Warren Davis | Cellular Sales — Verizon's #1 Authorized Retailer

\$297 value · 30 days · Real results

Welcome.

I've been selling on the floor of Cellular Sales — Verizon's #1 Authorized Retailer — for years. I've watched reps right next to me work the same hours, talk to the same customers, and make half what I make.

The difference isn't charm. It's not luck. It's a system.

This program is that system. Follow it for 30 days and your commission check will be different.

The Math Before We Start

METRIC	AVERAGE REP	TOP 10% REP	YOUR TARGET
Units/month	15-20	35-50+	___
Add-a-line rate	10-15%	30-40%	___
Accessory attach	40-50%	80-90%	___
Monthly commission	\$2,000-3,000	\$5,000-7,000+	\$___

If this program adds just 5 extra units per month at \$40 average commission each, that's \$200/month extra. Every month. For the rest of your career. \$297 pays for itself in 45 days.

WEEK 1

Foundation Reset

Mindset, math, and the 3 openers that work every time

Day 1-2: The Mindset Audit

Before we touch scripts, we fix the mindset. Most reps unconsciously cap their own income. Here's how to identify and eliminate the 4 income ceilings most reps hit:

- Ceiling 1 — The "bad traffic day" mindset: blaming external factors for slow days
- Ceiling 2 — Qualifying prospects before you've said hello
- Ceiling 3 — Discounting the experience for customers who "seem like browsers"
- Ceiling 4 — Tracking the wrong metrics (footsteps, not conversions)

MINDSET AUDIT: Write your last 3 "bad" shifts. What external factor did you blame? Now identify on

Day 3-4: The Commission Math Worksheet

Reverse-engineer your income target into daily, hourly unit goals.

GOAL	CALC	YOUR NUMBER
Monthly income target	—	\$ _____
÷ Avg commission/unit	÷ \$40	_____ units/month
÷ Working days/month	÷ 22	_____ units/day needed
÷ Close rate (e.g. 30%)	÷ 0.30	_____ conversations needed/day
÷ Walk-ins per day	your store avg	_____ % of all traffic you must engage

Day 5-7: The 3 Openers That Work Every Time

Most reps kill the sale in the first 10 seconds by asking the wrong question. Here are the 3 openers that work on every walk-in:

OPENER 1 — The Observation

"I noticed you came in with a [phone model]. What do you love about it?"

Why it works: starts a conversation about them, not about selling.

OPENER 2 — The Welcome

"Hey, welcome in! Is this your first time checking us out or have you been in before?"

Why it works: creates an instant differentiation. New customers get one treatment; returning get another.

OPENER 3 — The Update

"Did you see the new [latest phone] just came out? They sent us a limited demo unit."

Why it works: creates urgency, curiosity, and gives them a reason to stay.

WEEK 2

The Conversation Framework

The 5 questions that make closing automatic

The 5-Question Discovery Sequence

Stop pitching. Start discovering. When you ask the right questions in the right order, customers close themselves.

#	THE QUESTION	WHAT YOU'RE MINING
Q1	What do you use your phone for most — calls, data, photos?	Find the primary use case.
Q2	Are you on a family plan or individual?	Reveal upsell potential.
Q3	When did you last upgrade?	Gauge how far behind they are.
Q4	What's the one thing that bugs you most about your current phone?	Find the pain point.
Q5	What matters most to you — price, the latest technology, finding the best?	Find the buying criteria.

The Accessory Attach System: Hitting 85%+

The rep who sells accessories on every transaction adds \$30-80 to their commission per deal. On 25

The 3-Step Accessory Framework:

1. ASSUME THE SALE: "Let me grab you a case for that." Not "Would you like a case?"
2. THE BUNDLE: "The case, screen protector, and charging block are \$89 together, or \$120 individually. The bundle makes more sense."
3. THE LOCK-IN: "I'm putting both in the bag for you. That's \$89 total for the bundle."

The Add-A-Line Script

"Before you go — real quick. Do you have anyone on your plan right now who's on a different carrier, or paying full price for a separate plan? I can add a line to your account for \$25-30/month. A lot of people don't know that's an option. Anyone come to mind?"

WEEK 3

Objection Elimination

Word-for-word responses to the 11 most common objections

RESPONSE: "Totally get it. What specifically are you unsure about? Is it the price, the phone, or the plan?" [Address the

OBJECTION: "I'm under contract."

OBJECTION: "I can get it cheaper online."

WEEK 4

Income Multipliers

Follow-up systems, referrals, and pipeline building

The Follow-Up Text Sequence

Sending 4-8 follow-up texts per week adds 4-8 extra units per month. This is automatic income.

TEXT 1 — Day after visit

"Hey [name], it's Warren from Cellular Sales. Wanted to check — any questions about [what you looked at]? Happy to help!"

TEXT 2 — 3 days later (if no reply)

"Hey, just circling back. The [phone/plan] we talked about — I have one left in [color]. Let me know if you want me to hold it for you!"

TEXT 3 — 1 week later (if still no reply)

"Last message — the deal we talked about is still available. Would hate for you to miss it. [Phone number] if it's easier to reach me!"

The Referral Ask Framework

"Before you head out — if you have any friends or family who've been thinking about upgrading, send them my way!"

Timing: Say this AFTER the transaction is complete and the customer is happy — right before they walk out the door. Never mid-transaction.
